Joseph George September 2011

September 2011 allows our program to step it up a notch and operate on a higher level. Our students and staff have gotten a chance to adapt and conform to the necessary program design model's daily routine. With that in play we have only to fine tune our components, introducing a stander of performance that is only obtainable by staff and student comprehension of program vision and mission. The goal for this month is for our students to not only understand the mission but live it.

PLC

Thank you so much to all the wonderful parents that continue to support our program and have offered their help this early on. We are so excited for the fun activities that the parents have in store for our program. It is very encouraging to know that we have a strong support from all the families we serve.

Keep an eye out for:

- Mandatory parent orientation
- First parent leadership committee meeting

TBA

Enrichment kick-off month

This month we will introduce the first set of enrichment classes with our showcase event. By the same token we want to stress the importance of student attendance during this month, for our showcase event will determine what enrichments our students will participate in for the next five weeks.

Things to remember

- Choose your class wisely!
- Show up every day!

There will be no switching classes

Students that miss showcase will be completely lost when choosing classes.
