Joseph George middle School

2012 allows our program to step it up a notch and operate on a higher level. Our students and staff have gotten a chance to adapt and conform to the necessary program design model's daily routine, With that in play we have only to fine tune our components, introducing a standard of performance that is only obtainable by staff and student comprehension of programs' vision and mission.

Our program delivery will be transparent in its intentionality from all aspects and components of the day.

Our plans

Enhancing our program and providing a solid step in our rise to the next level is our active parent leadership committee.

Already having helped coordinate our second session culminating event at such an early stage, this committee has great potential and we have great expectations for this upcoming year.

For information about our committee:

Around the corner

This week we will introduce the set of new enrichment classes with our showcase event. By the same token we want to stress the importance of student attendance during this week, for our showcase event will determine what enrichments our students will participate in for the next five weeks.

Physical activity

In our sports department, I am excited to announce that football is next, keep an eye out for further details.

Overall 2012 brings advancement our site.

- Mr. Candelas
